

HEAR YE, HEAR YE ALL!

The Lost Pines Groundwater Conservation District will hold a special hearing on a “Contested Case” filed by Aqua Water Supply Corporation challenging groundwater permit applications totaling 111,000 acre-feet of Bastrop & Lee County groundwater – most of which is for export to the IH-35 Growth Corridor!

Forestar Real Estate (owned by Temple Inland) permit = 45,000 acre-feet/year

End Op LP permit = 56,000 acre-feet/year

LCRA permit = 10,000 acre-feet/year

Total Permit Applications = 111,000 acre-feet/year = 99,000,000+ gallons per day!

This could harm existing wells of Aqua Water *and* landowners with wells *and* force Aqua Water to pass on a rate hike to YOU, just to line the pockets of water profiteers!

Conserve First, Move Water Later!

Show up! Stand Up!

Where: Bastrop Convention Center, 1408 Chestnut Street

When: Wednesday, May 15th, starts at 5 pm

Bring folks with you!
