## **Save The Date!**

You have all heard the saying: JUST DO IT!!! Campaign ads have spent millions on this concept. The reason for this is that it separates the winners from the losers. Everyone asks, "What can we do?" Well, the easiest and most important thing is – JUST SHOW UP!

Bring your lunch, some extra beverages in a cooler and bring a friend. Heck, bring two friends! Bring your teenagers. It's their future at stake! Plan on spending the entire day. Assume obstacles will be laid out.

Don't let the continued disregard for our Loss of Our Groundwater go unnoticed. Put yourself on notice.
